

What makes our schools great?

A COMMUNITY DIALOG

For any community to thrive, it must be a place where people want to live and raise families, where they can build businesses and find jobs. For many, the most important indicator of a community's promise is the quality of its public schools. In order to keep our communities strong and attract families and businesses, we couldn't do anything more important than promote the value to be found in our public schools.

RSU 38 school community members are invited to help kickoff a statewide conversation to identify what we value most in our local public schools, as part of Maine Defines School Success, a Maine Department of Education project. Please consider participating in this important event. The evening will feature a quick introduction followed by conversation and sharing of ideas.
